MONTHLY PERFORMANCE REPORT

Equity is in the Air Corrections are a part of market cycle, but soon equities will rain again!

**Kamal
Manocha**
CEO,
PMS AIF World

Dear Investors,

Hope you are keeping well.

While we understand that current fall in equities is painful to experience more because it's been almost 9 months, but remember, in the world of good equities, more pain is mostly followed by more gains. And correction should only be painful for a naïve investor who invested in markets with the aim of generating quick returns.

Corrections are a part of the market cycle and investors not only have to go through it but learn to grow through it. Corrections can delay the time of potential returns, but they cannot take away returns from your hands if you stay calm, positive, and invested in the right stocks.

Despite 8 big corrections in the last 22 years, equity, as an asset class has delivered great returns in the past, and so will be its behaviour in the future!

If seen from the point of view of valuations of Nifty 50 trailing PE, Equities domestically have corrected around 35-40%. This is because while prices have fallen, earnings have risen. At present valuations of equities do not stand much different than fixed income, which is a rare phenomenon, and should be viewed opportunistically.

We concluded another very intuitive and meaningful Virtual Confluence of 2 days over 8th & 9th July '22, where our aim was to discuss with industry thought leaders, some of the realistic questions of investors.
